Profile Summary(Full-stack Developer)

- ♦ As CTO of A Series Industry-IT company, I have **approx one years** of experience in the IT industry. We are a Start-up whose primary purpose is web development and web design, and want to make an exciting and challenging entry into the technology industry.
- ♦ Your company that will continually motivate me to do my top-notch work and improve my skills and abilities to be able to assist,
- ♦ I intend to become a **"Full Stack developer"** with the assistance of your company.
- ♦ The coming years will bring a revolution for every web design and development company. Almost every industrialist in the country is interested in getting their business online, but they don't have much knowledge about it. Consequently, they are further away from this fantastic facility, where I have a brilliant idea of how to impart knowledge.
